Goulburn-Murray WATER

Our Ref: A3925733

27 April 2021

To whom it may concern,

Lake Eildon Spillway Maintenance Works extension

I am writing to advise that the current maintenance works on the Lake Eildon spillway, due to be completed at the end of April 2021, will now continue until early June 2021.

The works will continue to be within a fenced area on land not accessible to the public, however road users are reminded to be vigilant on the road as there will be some crane and cement trucks moving throughout the area for the remainder of the works.

We anticipate that any increased levels of noise will continue until Mid-May 2021 and may echo across the pondage and through the valley. All works' plans have been approved and will be conducted within Environment Protection Authority (EPA) guidelines. If required, operational limits will be implemented to reduce the noise levels.

To reduce any unnecessary impact on local residents and visitors we ask that you adjust your services/advice where possible during this time.

If you have any questions about the works, please email GMW Project Manager Nick Pearce at Nick.Pearce@gmwater.com.au or phone the GMW Customer Experience Team on 1800 013 357.

Yours sincerely

Scott Wikman
